1 year ago to day I thought this day we should have been homward bound to day but instead of getting 500 lbs as we Expected we have not got but 100 in one year this we can see how short sighted is man and how vain is all his Expectations still if there was no one but myself to support off of this Voyage it would not be to much — Now I have got about 14 months more to stay before I can see my family but if they are blessed with health I shall I can ask and am willing to leave the rest to a just God that they may Enjoy it is the sincere prayer of a husband & father

22 Months out and we have not got-
but hardly ½ oil, and 10 months more
to stay yet but I hope and pray
that we shall get two more get but-
I dont know I hope for the best
and leave the rest to god who
orders all things as he thinks
fit- for he is our just judge
and in him I will put my
trust- I wish I could know
how my Wife and children are
to night- for I feel very anxious
about them and I would be glad
to know how they are getting
along if they are get ready and
to me for the hope of once
more seeing them is the pole
Star of my Existence with
guides and encourages my Exist-
ence hoping them helth and Gods perity

I'm sailing o'er the Ocean Love
And far from the Groom
A Stranger in a foreign Land
An Exile from my Home

O how long must I Wander
How Long a Stranger be
Before I am contented

Dec 13 Yesterday Spoke a Ship bound
Home and there were many Smiling
and happy faces there but I
come on board unhappy & Discontented
for many is the Days both Dark and

shall hear the happy sound of
Homeward Bound Should I live
